4.1 Importance of Task Force

4.2 Relevant Planning Act Sections

Bobby Gauthier provided a brief presentation on the City of Kawartha Lakes Rural Zoning By-law Review. The topics included discussions what a Zoning By-law does, the Planning Act authority under which it is created, the relationship with the Official Plan, the function of the Zoning By-law, the Rural Zoning By-law review schedule and the Community and Stakeholder Consultation Strategy.

4.3 CKLOP Basis of Zoning By-laws

The Official Plan sets out policies to guide the use of land in the City of Kawartha Lakes. The Rural Zoning By-law will be the primary tool to implement the policies of the Official Plan within the rural areas of the City. The Zoning By-law transforms the City's goals into quantifiable, enforceable regulations. The key objective will be to comprehensively demonstrate and document conformity with the City of Kawartha Lakes Official Plan.

4.4 Function of Zoning By-law

Bobby advised that the Zoning By-law establishes provisions that regulate the use of land as well as the size, height and location of buildings and structures with the municipality.

The members asked a few questions to staff and the consultants.

5.0 New Business

5.1 Project Timeline and Schedule

Bobby Gauthier provided an overview of the Project Timeline and schedule of the Rural Zoning By-law Consolidation project. There are three stages involved in the project: Stage 1 – Review and Analysis – setting the foundation with a clear work plan, Stage 2 – Preparation of Summary Report and Draft Rural Zoning By-law, and Stage 3 – Rural By-law Refinement and Final Adoption.

Stage 1 – Review and Analysis

Bobby advised that in Stage 1 of the project, the Task Force would develop a stakeholder consultation strategy late September and the Technical Advisory Committee meetings will be scheduled along with several Open Houses.

Bobby stated that in November there will be a second Task Force meeting and the discussion paper will be reviewed. The discussion paper will identify the key issues to be addressed with development of the consolidated Zoning By-law. In early 2020 the Task Force will make a presentation to the Planning Advisory Committee meeting that will complete Stage 1 of the project.

Stage 2 – Preparation of Summary Report and Draft Zoning By-law

Consultation will occur with some flexibility and Item 2.4 (Issue specific Public/Stakeholder Workshops) may not be necessary. There will be a release of a Draft Zoning By-law with a series of Open Houses. Stage 2 will be completed following a Council presentation.

Stage 3 – Rural By-law Refinement and Final Adoption.

The members asked some questions regarding the project timeline and schedule.

5.2 Communication Strategy

Bobby Gauthier provided an overview of the Communication Strategy to the Task Force members. The consultants suggested creating a webpage along with the City Website as well as the use of social media (City's Facebook and twitter accounts). There would be several public open houses, public or stakeholder workshops, any requested stakeholder meetings and statutory Public Open House and statutory Public Meeting scheduled for the public to attend.

Members suggested contacting the press through the Communications department and providing written material at the local fairs this fall for the public to read.

There were further suggestions by the members regarding holding the public meetings and sending the communications out to the public.

5.3 Preliminary CKL Zoning Webpage

Ashley Locke, Communication Officer advised that there is a dedicated space on the City Website for the Rural Zoning By-law Consolidation Project and Staff would work with the consultants in preparing for the Public meetings. There will be an interactive map to assist the public to visualize existing and proposed zoning regulations. Ashley suggested providing a timeline and indicating the different phases involved in the project on the webpage and let the public know what stage the Task Force is currently working on.

Ashley suggested having FAQ's to keep the public engaged especially if this is a longer project. The use of social media and press releases to publicize public meetings and the availability of draft documents would be helpful as well.

The members discussed the best way to send information about the project out to the public.

5.4 General Roundtable Discussion of Zoning Issues and Topics

The members brought forward suggestions to involve the lake associations and the Conservation Authority since there is a lot of zoning and policy works being done along the waterfronts.
